Perdaus Condemns Israel's Assaults and Calls for the Community to Provide Aid

Perdaus is deeply concerned over the loss of so many lives due to the latest escalation of clashes in and around the Gaza Strip. As the bombardment of the Gaza Strip and the Israeli ground operation intensifies, the humanitarian situation will only worsen.

At this critical time, further loss of life, suffering and destruction should stop and parties must exercise utmost restraint and de-escalate.

Perdaus urges Singaporean Muslims, and Singaporeans in general, to do what they can: donate to humanitarian organisations providing aid to victims of the conflict, learn more about the roots of the conflict and how it has evolved to the present crisis, and spread awareness amongst friends and family.

Most importantly, we urge everyone to keep the victims of the conflict in your prayers, for deliverance from further suffering.
